

## **JIB - STUDENT INVOLVEMENT IN DECISION – MAKING**

The role of the school is to create a stimulating learning climate, which develops active involvement of students in their education and develops a spirit of inquiry. The Board believes that a student should:

1. Be encouraged to participate in planning classroom activities and in improving courses of studies.
2. Feel free to express, without fear, his or her opinions, recognizing that every privilege and right has a corresponding responsibility.
3. Be involved in the planning of assembly programs and school-sponsored forums of interest.
4. Be encouraged to participate in student government organizations and/or principal advisory organizations that provide students with a voice in school affairs.
5. Be encouraged to participate in a variety of extra-curricular activities to broaden their educational experiences.

The Board may choose to add a nonvoting student member from a high school in the District to the Board.
