

EBC – CRISIS PREVENTION AND RESPONSE

The Board recognizes that schools are subject to a number of potentially dangerous events, such as natural disasters, industrial accidents, acts of terrorism, and other violent events. No school is immune from these events no matter the size or location. The Board is committed to the prevention of these events, to the extent possible, in the schools and at school-sponsored activities.

The Superintendent will establish an advisory committee to develop a Crisis Prevention and Response Plan. The committee will review district programs and activities, assess the district's security and safety needs, review Board policies, administrative regulations, response plans and procedures.

The Superintendent will develop an administrative regulation that ensures the effective development and implementation of the District's plan.
