

ECD – TRAFFIC AND PARKING CONTROLS

Driving and parking on school property are privileges granted by the School Board to persons who have reasons to be in the school or on school property during school hours.

The school administration will develop a plan for accommodating the flow of traffic and traffic regulations, and will assign parking areas to staff, visitors, students, and handicapped persons.

Parking will not be permitted on school grounds or in non-designated parking areas. If school is canceled due to inclement weather, a parking ban will be instituted to facilitate cleaning or preparing the parking lot. A parking ban may be called at any time to facilitate maintenance of the parking lot.
