Introduction

Ed 1126.01 (b)

This Special Education Procedures Plan describes Epping School District's (LEA) procedures regarding the provision of a free and appropriate public education (FAPE) to all children with disabilities. The LEA will annually review this special education procedural plan so that the procedures reflect current federal and state regulations.

This Plan has been developed to assure the SEA that the LEA has procedures to meet the eligibility requirements of Part B of the IDEA for purposes of receiving federal funds.

This Plan is aligned with 34 CFR Part 300 of the Assistance to States for the Education of Children with Disabilities and Preschool Grants for Children with Disabilities - Final Rules - 8/14/06 (IDEA 2004) and The New Hampshire Rules for the Education of Children with Disabilities – adopted March 23, 2017, amended June 14, 2018 and August 9 2018 (NH Rules).

SAU 14 provides a free and appropriate public education to students with educational disabilities and offers a full range of special education programs, related services, and supports to students ages 3 – 22 that have been determined to be educationally disabled and require specialized instruction.

The special education process is designed to enable parents of students with educational disabilities and the School District to work together to ensure that each child is provided an appropriate education. Parents are an important part of this process and are encouraged to take an active role. The Special Education Team is the foundation of the special education process and is comprised of educational professionals and parents. The Special Education Team reviews referrals, plans diagnostic evaluations, determines if students are eligible for special education, writes IEPs, and makes placement recommendations. No one person may make a decision regarding a child's special education evaluation, identification, program, or placement.

Approved:

Revised: 10/2022

1. Child Find/Participation with Other Agencies

Ed 1105, Ed 1126.01 (10)

The Epping School District ensures that all children who have disabilities, from 2.5 to age 22, who reside in the District, and who are in need of special education and related services are identified, located and evaluated. This applies to all children with disabilities, including highly mobile children (such as migrant and homeless children), children placed in homes for children, health care facilities, or state institutions, and children who are suspected of being eligible under IDEA, even though they are advancing from grade to grade. In addition, this applies to those children attending approved, non-public private schools within the geographic boundaries of the District.

For those students who are transitioning from Early Supports and Services to preschool, the District will participate in a transition planning meeting for the purposes of effecting a smooth and timely transition and implementing an Individual Education Program or Individual Family Support Plan by the child's third birthday.

All data and information collected and used under this section are subject to confidentiality requirements as described in Section 2 - Confidentiality.

The District Child Find program includes, at a minimum, the following:

- The District has established referral procedures, which ensure that all students who are suspected or known to be a child with a disability are referred to the special education evaluation team for further evaluation. These procedures are found in Section 6 – Pupil Evaluation to Placement/Parent Involvement.
- Any person may refer a child to the IEP team for reasons including but not limited to the following (list is not exhaustive):
 - Failing to pass a hearing or vision screening;
 - Unsatisfactory performance on group achievement test or accountability measures;
 - Receiving multiple academic and/or behavioral warnings or suspensions/expulsions from a child care or after school program;
 - Repeatedly failing one or more subjects.

Approved:

Revised: 10/2022

- Inability to progress or participate in developmentally appropriate preschool activities;
- Receiving services from family centered early supports and services.
- On an annual basis, the District contacts all approved nonpublic private schools (including religious elementary and secondary schools) within its geographic boundaries regardless of where the child resides. The District shall conduct a consultation meeting and advise school officials of the District's responsibility to identify and evaluate all students who are suspected of or known to be a child with a disability enrolled in such schools. The District shall conduct Child Find activities that ensure equitable participation of private school students with disabilities and provide an accurate count of those students. All Child Find activities conducted for children enrolled in private schools by their parents shall be similar to those activities conducted for children who attend public schools in the District. Referrals from approved nonpublic schools shall be forwarded to an appropriate special education team for further consideration.
- On an annual basis, the District contacts all community agencies and programs within its geographic boundaries that provide medical, mental health, welfare, and other human services, to advise them of the District's responsibility to identify and evaluate all students who may be a child with a disability. This includes homes for children, health care facilities, or state institutions within the boundaries of the District that may have knowledge of children with disabilities who are involved with the state court and for whom a special education program may be appropriate. Referrals from these agencies shall be forwarded to the special education evaluation team for further consideration.
- On an annual basis, the District publicizes and disseminates information, which describes its Child Find Program. This includes a description of the District's special education program, supports and services, including a contact person, his/her functions, and the manner by which he/she might be contacted for further information or referral.
- The District shall annually provide all parents of children with disabilities information regarding their rights and responsibilities under federal and state special education laws.
- The District ensures that all referrals from parents and others who suspect or know a child with a disability are forwarded to the special education evaluation team. The District shall provide the parents with a written notice of any referral other than one initiated by the parent.

Approved:

Revised: 10/2022

- Ensure there are continuing efforts related to cultural competency in relationship to public awareness and Child Find activities, such as the ability to communicate with and relate to parents and families in ways which are appropriate to their individual racial, ethnic, and/or cultural backgrounds.
- The District shall coordinate with area agencies and family centered supports and services to establish a process of district notification of children served by these programs consistent with the interagency agreement between the District and the area agencies providing family centered supports and services.
 - Ed 1105.04 (a): The LEA shall develop a written early transition process for children exiting family centered early supports and services which assures that any child who is potentially a child with a disability is evaluated and eligibility for special education is determined prior to the child's third birthday. If a child is determined to be a child with a disability eligible for special education and related services, the LEA shall ensure that an IEP is developed and implemented on/before the child's third birthday.
 - Ed 1105.04 (b): The transition process in Ed 1105.04 (a) shall include a written interagency agreement between the LEA and the local area agencies, as defined by RSA 171-A:21-b, responsible for the provision of family centered supports and services in that community.

The District ensures there are continuing efforts related to cultural competency in relation to public awareness and Child Find activities, such as the ability to communicate with and relate to parents and families in ways which are appropriate to their individual racial, ethnic, and/or cultural backgrounds.

2. Confidentiality

[Ed 1126.01 \(b\)\(2\)](#), [Ed 1119](#)

The Epping School District adheres to the Confidentiality of Information regulations set forth in the NH Rules, the Federal Family Educational Rights and Privacy Act of 1974 (FERPA) and the Individuals with Disabilities Education Act (IDEA 2004; 34 CFR 300.610-627), with implementing federal regulations.

The District provides written notice to fully inform parents about the requirements of this section including:

Approved:

Revised: 10/2022

- A description of the extent that the notice is given in the native languages of the various population groups residing in the District.
- A description of the children for whom personally identifiable information is maintained, the types of information sought, the methods the District intends to use in gathering the information (including the sources from whom information is gathered), and how the information will be used.
- A summary of the policies and procedures that participating agencies must follow regarding storage, disclosure to third parties, retention, and destruction of personally identifiable information.
- A description of all of the rights of parents and children regarding this information, including the rights under the Family Educational Rights and Privacy Act of 1974 and IDEA and its regulations.

Before any major identification, location, or evaluation activity, the notice is published or announced on the district website, in local newspapers or other media outlets, with circulation adequate to notify parents throughout the District of the activity.

Access Rights (Ed 1114.13)

The District permits parents to inspect and review any education records relating to their child that is collected, maintained, or used by the District under 34 CFR Part 300. The District will comply with a request without unnecessary delay and before any meeting regarding an IEP, or any hearing pursuant to IDEA and its regulations and in no case more than 45 days after the request has been made.

The right to inspect and review education records under this section includes:

- The right to a response from the District to reasonable requests for explanations and interpretations of the records.
- The right to request that the District provide copies of the records containing the information if failure to provide those copies would effectively prevent the parent from exercising the right to inspect and review the records.
- The right to have a representative of the parent inspect and review the records.

The District may presume that the parent has authority to inspect and review records relating to his or her child unless the District has been advised that the parent does not

Approved:

Revised: 10/2022

have the authority under applicable State law governing such matters as guardianship, separation, and divorce.

Record of Access

The District keeps a record of parties obtaining access to education records collected, maintained, or used under Part B of IDEA (except access by parents and authorized employees of the participating agency), including the name of the party, the date access was given, and the purpose for which the party is authorized to use the records.

Record on More Than One Child

If any education record includes information on more than one child, the parents of those children have the right to inspect and review only the information relating to their child or to be informed of that specific information.

List of Types and Location of Records

The District provides parents on request a list of the types and locations of education records collected, maintained, or used by the District.

Fees

The District may charge a fee for copies of records that are made for parents under this part if the fee does not effectively prevent the parents from exercising their right to inspect and review those records. On September 18, 2014 the Epping School Board adopted the following fee for copies: \$0.25. The District does not charge a fee to search for or to retrieve information.

Amendment of Records at Parent's Request

A parent who believes that information in the education records collected, maintained, or used under this part is inaccurate or misleading or violates the privacy or other rights of their child, may request this information be amended. The District will determine whether to amend the information in accordance with the request within a reasonable period of time of receipt of the request. If the District decides to not amend the

Approved:

Revised: 10/2022

information in accordance with the request, it will inform the parent of the refusal and advise the parent of the right to a hearing.

Opportunity for a Hearing (Ed 1123)

The District, on request from the parent, will provide an opportunity for a hearing to challenge information in education records to ensure that it is not inaccurate, misleading, or otherwise in violation of the privacy or other rights of the child.

Result of a Hearing (Ed 1123.18)

If, as a result of the hearing, the District decides that the information is inaccurate, misleading or otherwise in violation of the privacy or other rights of the child, the District will amend the information accordingly and so inform the parent in writing. If, as a result of the hearing, the District decides that the information is not inaccurate, misleading, or otherwise in violation of the privacy or other rights of the child, it will inform the parent of the right to place in the records it maintains on the child a statement commenting on the information or setting forth any reasons for disagreeing with the decision of the District.

Any explanation placed in the records of the child under this section:

- Is maintained by the District as part of the records of the child as long as the record or contested portion is maintained by the District; and
- If the records of the child or the contested portion are disclosed by the District to any party, the explanation is also disclosed to the party.

Hearing Procedures (Ed 1123.17)

A hearing held under this section is conducted according to the procedures under 34 CFR 99.22.

Consent

Approved:

Revised: 10/2022

Except as to disclosures addressed in 34 CFR Part 300.535 (b) for which parental consent is not required by 34 CFR Part 99, parental consent is obtained before personally identifiable information is (1) disclosed to anyone other than officials of participating agencies collecting or using the information under 34 CFR Part 300, subject to this section; or (2) used for any purpose other than meeting a requirement of 34 CFR Part 300. The District will not release information from education records to participating agencies without parental consent unless authorized to do so under Part 99. The District protects the confidentiality of personally identifiable information at collection, storage, disclosure, and destruction stages. All persons collecting or using personally identifiable information will receive training or instruction regarding IDEA-B policies and procedures under 34 CFR §300.123 and 34 CFR Part 99. The District maintains, for public inspection, a current listing of the names and positions of those employees within the District who may have access to personally identifiable information.

Safeguards (34 CFR 300.623)

Each district must protect the confidentiality of personally identifiable information at collection, storage, disclosure, and destruction stages. One official at each district must assume responsibility for ensuring the confidentiality of any personally identifiable information. All persons collecting or using personally identifiable information must receive training or instruction regarding the state's policy and procedures under 34 CFR 300.123 and CFR part 99. Each district must maintain, for public inspection, a current listing of the names and positions of those employees who may have access to personally identifiable information.

Destruction of Information (Ed 1119.01 (b) (1))

Upon a student's graduation from high school, his or her parent(s)/guardian(s) may request in writing that the District destroy the student's special education records, including any final individualized education program.

The parent(s)/guardian(s) may, at any time prior to the student's twenty-sixth birthday, request, in writing, that the Special Education records be retained until the student's thirtieth birthday.

Absent any request by a student's parents to destroy the records prior to the twenty-sixth birthday, or to retain such records until the student's thirtieth birthday, the District shall destroy a student's Special Education records and final individualized education program within a reasonable time after the student's twenty-sixth birthday,

Approved:

Revised: 10/2022

provided that all such records be destroyed by the student's thirtieth birthday. However, Special Education records relating to Medicaid billing shall be maintained for a period of at least 5 years after the closure of the cost report associated with the services.

A permanent record of a student's name, address, and phone number, his or her grades, attendance record, classes attended, grade level completed, and year completed may be maintained without time limitation. 34 CFR 300.624. 5. The District shall provide parents/guardians, or where applicable, the adult student

Children's Rights (Ed 1120.01)

The District ensures the rights of privacy afforded to children are consistent with those afforded to parents, taking into consideration the age of the child and type or severity of disability. The age of majority in New Hampshire is eighteen (18) years, thus parental rights regarding educational records in IDEA and FERPA transfer to students at age 18.

Disciplinary Information (Ed 1119.02)

The District includes in the records of a child with a disability a statement of any current or previous disciplinary action that has been taken against the child. Such statements shall be included in, and transferred with the disabled child's record to the same extent that the disciplinary information is included in, and transmitted with the student records of children without disabilities. The statement may include a description of any behavior engaged in by the child that required disciplinary action, a description of the disciplinary action taken, and any other information that is relevant to the safety of the child and other individuals involved with the child. If the child transfers from one school to another, the transmission of any of the child's records includes both the child's current individualized education program and any statement of current or previous disciplinary action that has been taken against the child.

Approved:

Revised: 10/2022

3. Facilities, Personnel, and Services

Ed 1126.01 (b) (3)

The Epping School District shall take steps to ensure that children with disabilities have equal access to the variety of educational programs and services available to non-disabled children. The District ensures that, to the maximum extent appropriate, children with disabilities, including children in public or private institutions or other care facilities, are educated with students who do not have disabilities. Special classes, separate classes, separate schooling, or other removal of students with disabilities from the regular educational environment occurs only when the nature or severity of the disability is such that education in regular classes with the use of supplementary aids and services cannot be achieved satisfactorily. Placement decisions for children with disabilities shall be made on an individual basis by the IEP team and in accordance with the procedures described in Section 6 – Pupil Evaluation to Placement/Parent Involvement.

The District shall provide a full range of opportunities, programs and services to meet the unique needs of children with disabilities in the least restrictive educational setting. The District shall ensure that every child with a disability shall have full access to the general curriculum with accommodations and modifications as delineated in the IEP. This includes the provision of nonacademic and extracurricular services. These opportunities shall be provided through public school programs within and outside of the boundaries of the District.

The District shall provide access to vocational training and transition services as appropriate. Vocational and transition services are provided primarily within the District and at the high school level. Other student specific circumstances may be addressed as determined by the IEP team.

Equipment, Materials and Assistive Technology (Ed 1113.09)

The District shall provide appropriate instructional equipment and materials, including assistive technology devices and assistive technology services appropriate to implement each student's IEP.

Approved:

Revised: 10/2022

Personnel Standards (Ed 1113.12)

Teachers of students with disabilities, prior to employment, shall have valid New Hampshire certification with an endorsement appropriate for the disabilities of the students they serve. Additionally, special education teachers within the District must meet highly qualified teacher requirements for their respective teaching assignments, as designated by federal and state guidelines.

Programs and Services (Ed 1111.02, Ed 1111.03, Table 1100.2, Table 1100.3)

The Epping School District provides educational services to students with disabilities along a continuum of environments. These environments can include the following settings with appropriate state program approval:

- Regular Classroom
 - A child with a disability attends the regular class with supports and services as required by the IEP.

- Resource room
 - A child with a disability attends a regular class and receives assistance at or through the special education resource room for no more than 60% of the child's school day.
- Self-contained Special Education Class
 - A child with a disability attends a self-contained special class for more than 60% of their school day.
- Separate Approved Special Education Program/School
 - A child with a disability attends a public or privately operated special day program.
- Full-time Residential Programs
 - The child attends a privately or publicly approved residential program.
- Home Instruction
 - A child with a disability receives all or a portion of his or her special education program at home.

Approved:

Revised: 10/2022

- Hospital or Institution
 - A child with a disability receives special education while in a hospital or institution.

Children in preschool programs shall be grouped by age levels with a range of not more than three years. Children with disabilities shall be provided with appropriate special education and related services through the District's preschool programs and services.

PLEASE NOTE: the maximum number of preschool children in an early childhood special education program shall be 12, regardless of the number of staff members assigned to the program (Ed 1113.10 (d) (3)).

- Early Childhood Program
 - A preschool child with a disability attends an early childhood program that includes at least 50% nondisabled children.
- Home
 - A preschool child with a disability receives some or all of his/her supports and services in the child's home.
- Special Education Program
 - A preschool child with a disability attends an early childhood special education program which can include any of the classrooms described in [Ed 1113.10 \(c\)\(5\)](#).
- Service Provider Location
 - A preschool child with a disability receives supports and services from a service provider.
- Separate School
 - A preschool child with a disability attends a publicly or privately operated separate day school facility designed specifically for children with disabilities.
- Residential Facility
 - A preschool child with a disability attends a publicly or privately operated residential school or residential medical facility on an inpatient basis.

Approved:

Revised: 10/2022

Facilities and Location (Ed 1113.11)

Instructional areas for children with disabilities shall be located in classrooms with students of a similar chronological age and shall be comparable to other classrooms within the school. They shall be located in facilities that are, in the judgment of the IEP team, in the least restrictive environment. The physical space used for classrooms and other instructional programs and school activities for children with disabilities shall be of sufficient size to accommodate program modifications and accommodations necessary to implement the children's IEPs and to provide for all other learning activities.

Length of School Day (Ed 1113.15)

- **Preschool level**
 - The IEP team shall determine the length of the school day for preschool students with disabilities.
- **Elementary/Middle/High School**
 - The school day shall be a minimum of 180 days in each year or the equivalent number of hours approved by the Commissioner of Education, NHD OE, consistent with the provisions of RSA 189:1, 189:2, 189:24, and 189:25 and Ed 306.18-306.21.

Length of School Year (Ed 1113.14)

The District shall provide a standard school year of at least 180 days or the equivalent number of hours per ED 1113.15 (see above: Length of School Day). Students with disabilities in need of extended school year programming shall be provided for through the requirements described in Section 9 – Pupil Evaluation to Placement. Extended School Year Programming shall not be limited only to the summer months.

Supervision and Administration (Ed 1113.12)

The Superintendent of Schools, the Director of Student Services, Special Education Building Coordinators and the building Principals (or their designees) shall supervise the services and programs provided to students with disabilities.

Paraprofessionals shall work under the direct supervision of appropriately certified personnel and be supervised by the professional under whom they work as often as deemed necessary by the District, but no less than once each week.

Approved:

Revised: 10/2022

Paraprofessionals shall implement plans designed by the supervising professionals and monitor the behavior of student(s) with whom they work. They may not design or evaluate the effectiveness of programs. Paraprofessional performance is evaluated through a predetermined performance review process.

Diplomas (Ed 1113.13)

The Epping School District shall ensure that each child with a disability is entitled to continue in an approved program until such time as the student has earned a regular high school diploma or has attained the age of 22, whichever occurs first, or until the District determines that the student no longer requires special education in accordance with Section 6 – Pupil Evaluation to Placement/Parent Involvement.

All children with disabilities in the District shall have an equal opportunity to complete a course of study leading to a regular high school diploma. A regular diploma shall be issued to all students who:

- Successfully achieve the minimum number of 22.5 credits;
- Meet specific course requirements as described in the Epping High School Program of Studies; and
- Meet all attendance requirements as stated in the Epping High School Program of Studies (and/or Local District Policy).

The term “regular high school diploma” does not include an alternative degree that is not fully aligned with the NH School Approval Standards, such as a certificate or HiSet equivalency test. Any student who receives a diploma/certificate other than the District’s regular high school diploma remains eligible to receive a free appropriate public education until he or she reaches age twenty-one or until the IEP Team, through a formal evaluation process, determines that such student is no longer in need of, and thereby not eligible for, special education and related services.

Approved:

Revised: 10/2022

4. Personnel Development

Ed 1126.01 (b) (4)

The District has adopted a Professional Development Master Plan to serve as a basic guideline for the operation of its professional development for the five-year period of July 1, 2021 to June 30, 2026.

The District shall work to promote a climate that encourages the continuing education and training of all staff within the District. The Professional Development Master Plan shall advance an educational environment in which students receive high exposure to stimulating teachers, instructional materials and activities. Professional development activities that enhance the knowledge and skills of all staff related to the education of children with disabilities and increase their understanding of the diverse needs of all students shall be offered to all teachers, specialists, paraprofessionals, administrators and other IEP team members.

A variety of professional development opportunities shall be available to District staff, including job-embedded activities, in-service workshops, conferences and/or formal coursework reimbursed through the District.

Professional development initiatives for the current and upcoming school year include, but are not limited to:

- Workshops (both on and off site)
- Trainings (both on and off site)
- Professional readings
- Work with outside consultants

The Epping School District Professional Development Plan can be viewed via the SAU 14 website.

PLEASE NOTE: Staff members of the school District shall participate in child-specific training and professional consultation as required to help them understand various types of disabilities and meet the needs of individual students.

Approved:

Revised: 10/2022

5. Procedural Safeguards

34 CFR 300.504, Ed 1120, Ed 1126.07 (b) (7)

The Epping School District shall actively involve parents in all steps of the special education process. In addition to fulfilling legal requirements, the District recognizes the crucial and irreplaceable role parents play in the education of their children. Therefore, consistent efforts will be placed on keeping parents well informed within the context of a collaborative team process. In part this is accomplished by the dissemination of Procedural Safeguards Handbook and Written Prior Notice. Parents of a child with disabilities will be given the current New Hampshire Procedural Safeguards in Special Education describing the procedural safeguards available to them under state and federal law on an annual basis. In addition, parents will be offered and provided a copy of procedural safeguards at least once per year, but at a minimum upon:

- Initial referral or parent request for evaluation.
- The first time in a school year that a request for a due process hearing is filed.
- The first time in a school year that a complaint is filed.
- The date in which the decision is made to make a removal that constitutes a change in placement of a child with a disability because of a violation of a code of student conduct, in accordance with the discipline procedures in 34 CFR 300.536.
- In accordance with discipline procedures.
- Request by a parent.

To view the New Hampshire Department of Education Procedural Safeguards Handbook, please visit:

<https://www.education.nh.gov/who-we-are/division-of-learner-support/bureau-of-student-support/special-education/procedural-safeguards>

Approved:

Revised: 10/2022

6. Pupil Evaluation to Placement/Parent Involvement

Ed 1126.01 (b) (5), Ed 1126.01 (b) (8)

The Epping School District implements the Special Education Process that includes procedures for referral, evaluation, development of IEPs, and placement for children with disabilities. These procedures involve parents in all aspects of the pupil evaluation to placement process.

- Referral
- Evaluation
- Determination of eligibility
- Development and approval of IEP
- Placement
- Ongoing monitoring of the IEP
- Annual review of the IEP

Referral (Ed 1106)

Any student age 2.5 to 22 years suspected of having a disability may be referred to the District by parents, District personnel, or any other concerned party. A child's parents may also contact their child's teacher(s) or other school professional to request an evaluation. This request may be verbal or in writing; however, parents will be asked to place their request in writing and submit it to the building principal (or designee). Assistance in completing this written request shall be available to parents upon request. Upon receipt of a referral from someone other than a parent, and prior to the evaluation of a child suspected of being a child with a disability, the District shall immediately send written notification of the referral to the parent. Procedural Safeguards will be included with the parent notification. A meeting will be scheduled and held within 15 business days of receipt of the referral to review the referral and determine the appropriate course of action. At a minimum, the following people shall be invited to be part of the referral team:

Approved:

Revised: 10/2022

- One or both of the student's parents which includes biological or adoptive parents, legal guardians or surrogate parents, including foster parents who have fulfilled certain requirements;
- A representative of the School District other than the student's teacher who is qualified to provide or supervise the provision of special education services;
- Not less than one regular education teacher of the child (if the child is, or may be, participating in the regular education environment);
- Not less than one special education teacher or, when appropriate, not less than one special education provider of the child;
- The student (if on the age of majority) and where otherwise appropriate; and
- Other individuals at the discretion of the parent or School District who have knowledge or expertise regarding the child.

The District representative shall be qualified to provide, or supervise the provision of, specially designed instruction to meet the unique needs of children with disabilities, knowledgeable about the general curriculum, and knowledgeable about the availability of District resources. The team will review concerns raised in the referral and decide which of the following actions should occur.

- Determination that student is not suspected to be a child with a disability:
 - The IEP team considers information available, including parent concerns, and determines that no evaluation is needed.
 - The IEP team may recommend intervention strategies to be used in the regular class or other District options (SAT Team; 504 Team, etc).
 - The IEP team shall document its decision in meeting notes and Written Prior Notice.
- Determination that child may be a child with a disability:
 - The IEP team considers information available, including parent concerns, and determines that further evaluation is needed to address concerns and determine if the child is eligible for special education and related services.
 - The IEP team may request additional information from outside sources. Parents will be asked to provide written consent for the District to obtain this information.
 - The IEP team shall document its decision(s) in meeting notes and Written Prior Notice, and request written parental consent for evaluation.

Approved:

Revised: 10/2022

In either situation, if the child's parent disagrees with the team's disposition of the referral, the parent or District may activate the due process procedures (Ed 1121). The District shall comply with federal and state law and regulations when accepting referrals and transitioning children from early supports and services programs to preschool programs.

Evaluation (Ed 1107)

When the team determines that additional information is necessary, a full and individual evaluation is provided to determine if the child is a "child with a disability" and to determine the educational needs of the child. The IEP team plans initial evaluations and reevaluations, and parents are active participants in the evaluation planning process. Evaluations will be provided based on the suspected disability (or disabilities), and in accordance with the NH Rules. The child's educational history shall be reviewed, including identification of the child's past opportunities to have acquired important skills and information.

The District shall comply with state and federal laws and regulations relative to initial evaluations, evaluation procedures and re-evaluations, including the additional procedures required for evaluating children with specific learning disabilities.

Written parental consent is required in order for the District to conduct evaluations as a part of an eligibility determination. If a parent refuses consent to a proposal included in Ed 1120.04 (a) (1) the District shall have the authority to pursue the initiation of a due process hearing under Ed 1123 (Ed 1120.05 (c)).

Written parental consent shall also be required for individual evaluations that are necessary to further diagnose the needs of a child who has previously been determined to be a child with a disability.

The District shall complete initial evaluations within 60 calendar days after receipt of written consent from the parent. For reevaluations, the evaluation process shall be completed within 60 calendar days after the receipt of parental consent to evaluate, or at the conclusion of any extension. When circumstances warrant additional time to complete reevaluations, upon written consent of the parties, a 60 day time limit may be extended by a specific number of days, not to exceed 30 days. A copy of this written agreement will be placed in the child's confidential file with the signed permission to

Approved:

Revised: 10/2022

test. When an extension is requested, the team shall make every effort to complete the evaluation in the shortest amount of time possible.

If a child with a disability moves into the District from another NH District his/her disability identification will be honored without delay.

If the child is moving into the District from another state, an IEP team meeting will be convened as soon as possible to review the types of evaluations that have previously been conducted and to plan any further evaluations necessary to determine eligibility in accordance with the NH Rules. If evaluations are not sufficient or current, further evaluations will be conducted as per team agreement. Formal eligibility as a child with a disability, as defined in the NH Rules, shall be determined within 60 calendar days of receipt of parental permission to evaluate. The student will receive FAPE including special services comparable to those described in the out of state IEP during this interim period.

The District shall ensure that evaluation materials and instructions are presented in the child's native language or other mode of communication and in the form most likely to yield information on what the child knows, and can do academically, developmentally and functionally, unless it is clearly not feasible. Standardized tests and materials in the child's native language shall be used whenever possible. If it is not possible to administer a test in this manner, the test will not be used.

Examiners shall be responsible for selecting current assessment tools that have been demonstrated to be reliable and valid. The District shall periodically review and consistently update test materials to the most current editions. Examiners shall be expected to use all test materials for their intended purpose. If an assessment is not conducted under standard conditions, a description of the extent to which it varied from standard conditions must be included in the evaluation report. The District shall ensure that all evaluators are qualified according to the NH Rules. Each evaluator shall prepare a test report reflecting the data and their conclusions.

Determination of Eligibility (Ed 1108)

Upon the completion of the administration of tests and other evaluation materials, a team of qualified professionals and the parent of the child will meet to review the results and recommendations of the evaluations and to determine whether the child is a

Approved:

Revised: 10/2022

child with a disability and that the child requires specialized instruction. At this meeting, team members will draw upon information from a variety of sources, including aptitude and achievement tests, parent input, teacher recommendations, physical condition, social or cultural background, and adaptive behavior. They must ensure that the information obtained from all of these sources is documented and carefully considered. The team will complete a written summary containing the results of the various diagnostic findings and forward a copy of the report to the parent and maintain a copy for the child's records. The report shall include, at a minimum:

- The results of each evaluation procedure, test record, or report;
- A written summary of the findings of the procedure, test, record, and/or report; and
- Information regarding the parent's rights of appeal in accordance with the NH Rules - Ed 1120 and a description of the parent's right to an independent evaluation in accordance with the NH Rules - Ed 1107.03.

Unless waived by the parents, the LEA shall provide parents with copies of each examiner's evaluation and assessment report(s) at least 5 days prior to the meeting of the IEP team at which the evaluation and assessment report(s) will be discussed. The LEA shall provide the report(s) by sending the report(s) to the parents via US mail unless the parents and the LEA agree upon another method.

A child may not be determined to be eligible if the determining factor for that eligibility decision is lack of instruction in reading or math, limited English proficiency, or the child does not otherwise meet the eligibility criteria under state guidelines. If a determination is made that a child has a disability and needs special education and related services, a meeting to develop an IEP shall be conducted within 30 calendar days of the eligibility meeting.

Additional Procedures for Evaluating Children with Specific Learning Disabilities (CFR 300.307)

The Epping School District has adopted policy IHBAB, which describes the evaluation procedures and standards that will be used to evaluate whether a child has a learning disability.

Approved:

Revised: 10/2022

Evaluation requirements for Children with Specific Learning Disabilities (Ed. 1107.02)

For purposes of evaluating whether a child has a specific learning disability, one or more of the following criteria shall be used:

- A discrepancy model between intellectual skills and achievements;
- A process that determines if the child responds to scientific, research-based intervention as part of the evaluation procedures described in 34 CFR 300.307 (a) (2); and
- Other alternative research-based procedures as described in 34 CFR 300.307 (a) (3).

The Epping School District has adopted policy IHBA, describing the evaluation procedures and standards that will be used to evaluate whether a child has a specific learning disability.

- A group may determine that a child has a specific learning disability if the child does not achieve adequately for his/her age or to meet State-approved grade-level standards in one or more of the following areas, when provided with learning experiences and instruction appropriate for the child's age or State approved grade-level standards in one of the following areas:
 - Oral Expression
 - Reading Fluency Skills
 - Listening Comprehension
 - Reading Comprehension
 - Written Expression
 - Mathematics Calculation
 - Basic Reading Skills
 - Mathematics Problem Solving
- The child does not make sufficient progress to meet age or State-approved grade-level standards in one or more of the areas identified above when using a process based on his or her response to scientific, research-based intervention.

Approved:

Revised: 10/2022

- The child exhibits a pattern of strengths and weaknesses in performance, achievement, or both, relative to age, State-approved grade-level standards, or intellectual development, that is determined by the group to be relevant to the identification of a specific Learning disability, using appropriate assessments.
- The group determines that the evaluation findings are not primarily the result of:
 - A visual, hearing, or motor impairment
 - Emotional disturbance
 - Environmental or economic disadvantage
 - Mental retardation
 - Cultural factors
 - Limited English proficiency

PLEASE NOTE: The NHDOE clarifies that the initial evaluation of a child suspected of having a learning disability requires an intelligence test. Also required: academic achievement, observation, vision and hearing.

Teams must consider the student’s achievement measured against expectations for the child’s age and grade level standards/expectations set by the state. In order to ensure that underachievement in a child suspected of having a specific Learning Disability is not due to lack of appropriate instruction in reading or math, the group must consider, as part of its evaluation:

- Data that demonstrate that prior to, or as a part of, the referral process, the child was provided appropriate instruction in regular education settings delivered by qualified personnel.
- Data-based documentation of repeated assessments of achievement at reasonable intervals, reflecting formal assessment of student progress during instruction, which was provided to the child’s parents.

The District shall promptly request parental consent to evaluate the child to determine if the child needs special education and related services, and shall adhere to the established timeframes (unless extended by mutual written agreement of the child’s parents and the District):

Approved:

Revised: 10/2022

- If, prior to a referral, the child has not made adequate progress after an appropriate period of time when provided instruction.
- Whenever a child is referred for an evaluation.

Observation (Table 1100.1)

At least one team member other than the child’s regular teacher shall observe the child’s academic performance in the regular classroom setting. The LEA must ensure that the child is observed in the child’s learning environment (including the regular classroom setting) to document the child’s academic performance and behavior in the areas of difficulty. In the case of a child of less than school age or out of school, a team member shall observe the child in an environment appropriate for a child of that age.

Written Report (Ed 1107.04 (c), Ed 1107.04 (d))

For a child suspected of having a specific learning disability, the documentation of the team’s determination of eligibility shall include a statement of:

- Whether the child has a specific learning disability.
- The basis for making the determination.
- The relevant behavior noted during the observation of the child.
- The relationship of that behavior to the child’s academic functioning; and educationally relevant medical findings, if any.
- Whether the child does not achieve adequately for the child’s age or to meet State-approved grade-level standards; and the child does not make sufficient progress to meet age or State-level standards, or the child exhibits a pattern of strengths and weaknesses in performance, achievement, or both relative to age, State-approved grade level standards or intellectual development.
- The determination of the group concerning the effects of visual, hearing, or motor disability; mental retardation; emotional disturbance; cultural factors; environmental or economic disadvantage; or limited English proficiency on the child’s achievement level (300.311).
- If the child has participated in a process that assesses the child’s response to scientific, research based intervention- strategies uses, data collected, strategies for increasing learning, and parents right to request an evaluation.

Approved:

Revised: 10/2022

Each team member shall certify in writing whether the report reflects his or her conclusion. If it does not reflect his or her conclusion, the team member must submit a separate statement presenting his or her concerns.

Independent Educational Evaluations (Ed 1107.03)

Parents of a child with a disability have the right to obtain an independent educational evaluation at public expense if they disagree with an evaluation conducted by the District.

If parents request an independent educational evaluation at public expense, the District: shall either initiate a due process hearing to show that its evaluation is appropriate or ensure that an independent educational evaluation is provided at public expense, unless it has demonstrated at a hearing that the evaluation obtained by the parent does not meet the District's criteria.

The District may ask for the reason why parents object to the District's evaluation; however, the explanation shall not be required and the District shall not unreasonably delay either providing the independent educational evaluation at public expense or initiating a due process hearing to defend the District's evaluation.

If a parent obtains an independent educational evaluation at private expense, the District shall consider the results of the evaluation if it meets the District's criteria. If an independent educational evaluation is at public expense, the criteria under which the evaluation is obtained, including the location of the evaluation and the qualifications of the examiner, must be the same as the criteria that the District uses when it initiates an evaluation, to the extent those criteria are consistent with the parent's right to an independent educational evaluation. The agency criteria determined by the LEA shall not be so restrictive that it effectively prohibits parents choice Ed 1107.03(c)). Results of an independent evaluation obtained at parents' expense may be presented as evidence at a hearing regarding the child.

Approved:

Revised: 10/2022

Development of the IEP (Ed 1109)

A meeting to develop an Individualized Education Program (IEP) for the child shall be conducted within 30 calendar days of a determination that the child needs special education and related services. For previously identified children with disabilities, the IEP must be in place at the beginning of the school year.

The District shall take steps to ensure that one or both of the child's parents attend each IEP meeting or are afforded the opportunity to participate. IEP meetings will be scheduled during the day at a mutually convenient time and place. The District shall ensure that parents of a child with a disability receive written notice no fewer than 10 calendar days before an IEP meeting is to occur. The notice shall include the purpose, time, location, and identification of the participants. The 10-day notice requirement may be waived with the written consent of the parent or upon the written request of the parent. If the parent is unable to attend a meeting, they may ask for it to be rescheduled or held in a different location. The District shall consider alternative ways for a parent to participate if he or she is not able to physically attend a meeting, such as a telephone conference call. If for some reason parents cannot take part in scheduled meetings, documentation of the attempts made to include the parent shall be kept.

The IEP Team (Ed 1103.01)

A team approach shall be used to develop an IEP for each child with a disability. The IEP team shall include:

- The parents of the child;
- Not less than one regular education teacher of the child (if the child is, or may be, participating in the regular education environment);
- Not less than one special education teacher of the child, or, where appropriate, not less than one special education provider of the child;
- A representative of the public agency who:
 - Is qualified to provide or supervise the provision of specially designed instruction to meet the unique needs of children with disabilities;
 - Is knowledgeable about the general curriculum; and
 - Is knowledgeable about the availability of resources of the public agency.

Approved:

Revised: 10/2022

- An individual who can interpret instructional implications of evaluation results;
- Other individuals who have knowledge or special expertise regarding the child (at the discretion of the parent or school District);
- Transition service representative if applicable; and
- If appropriate, the child.

A team member may be excused from the whole or part of the meeting if the parent and the District agree the member's area of curriculum or related services is not being modified or discussed.

PLEASE NOTE: The LEA or parent shall notify the other party **72 hours** before a scheduled meeting or upon learning of the expected absence of a team member, whichever is earlier (Ed 1103.01 (d)).

The team member may be excused only if the parent and the district provide written consent to the excusal. The team member must submit written suggestions about the development of the IEP to the parent and IEP team prior to the meeting.

In the case of a child who was previously provided services Early Supports and Services (Part C of the IDEA), an invitation to the initial IEP Team meeting shall, at the request of the parent, be sent to the Part C service coordinator or other representatives of the Part C system to assist with the smooth transition of services.

Team members may, at times, fulfill more than one role. IEPs shall be developed collaboratively and include all necessary components as designated in state and federal laws and regulations. Transition goals, related services and/or supports shall be included in the discussion and incorporated into the IEP as appropriate. This includes transition to adult life as well as transitions from grade to grade, school to school or from one agency to another. Necessary supports to ensure successful transitions will be documented.

When a vocational education component is being considered for a child with a disability, vocational assessment(s) shall be administered to the child by diagnosticians qualified as specified by the publisher of the assessment. The IEP team membership shall include an individual knowledgeable about the vocational program(s) being considered.

Approved:

Revised: 10/2022

If the IEP team determines that vocational education is to be provided, a vocational education component shall be included as an integral part of the IEP. Goals and objectives, as well as any appropriate accommodations and/or modifications, will be developed for the IEP unless the student will participate in the vocational class/program without the need for modifications. Transition goals related to vocational programming will be reflected in the Individual Transition Plan and in the summary of the child's academic achievement and functional performance (completed before graduation from secondary school with a regular diploma or exceeding the age of eligibility for FAPE).

The District shall ensure that each child with a disability has access to appropriate instructional equipment and materials for the proper and timely implementation of the IEP, including assistive technology devices or aids. The LEA shall provide each teacher and service provider listed as having responsibilities for implementing the IEP with a copy of the complete IEP for working and monitoring purposes. In addition, the LEA shall provide a private school or non-district provider responsible for implementing the IEP with a copy of the IEP on or before the first day of placement. The NHDOE interprets this to mean a paper copy (Ed 1109.04).

The District shall maintain written evidence documenting implementation of the child's IEP, including, but not limited to (Ed 1109.04 (b)):

- All special education and related services provided;
- Any supplementary aids and services provided;
- Program modifications made; and
- Support provided for school personnel implementing the IEP.

The IEP team shall determine the appropriate duration of an IEP, which shall not exceed 12 months. The IEP shall be reviewed at least annually and, if necessary, revised. The LEA shall conduct annually, at or near the end of the term of the IEP, a meeting for the purpose of assessing the effectiveness of the present program, and to design an IEP, including Extended Year Services if determined by the IEP team to be necessary for FAPE.

The District shall seek to obtain informed consent from a parent on the IEP before providing special education and related services to a child. In accordance with IDEA 2004, if a parent refuses to consent to the initial provision of special education and related services, the District shall not initiate a request for mediation or a due process

Approved:

Revised: 10/2022

hearing. The LEA shall have the authority to initiate court proceedings to authorize the initial provision of special education services.

If a parent refuses to consent to the provision of special education and related services other than initial provision of such services, the District shall initiate a due process hearing as specified in Ed 1123.

At any time, the parent or District can request another meeting to discuss any areas of concern regarding provisions in the IEP.

IEP Development for Students who Transfer

If a child with a disability who had an IEP that was in effect in a previous New Hampshire school district transfers to the Epping School District during the same year, the District shall consult with the child's parents and provide services comparable to those described in the child's IEP from the previous District, until it either adopts the child's previous IEP, or develops, adopts and implements a new IEP for the student.

If a child with a disability transfers from a district outside of New Hampshire, the Epping School District shall additionally determine if an evaluation is necessary in order to complete the previously described IEP process for the new student. The District shall provide a free appropriate public education, including services comparable to those described in the child's IEP from the previous District during this process.

Monitoring and Reevaluation (Ed 1109.06)

The District shall develop and implement procedures to ensure that IEPs are monitored in a regular and systematic manner. Student progress shall be monitored continually so that adjustments can be made as needed to ensure that each student is progressing adequately toward the goals and benchmarks/objectives in his or her IEP. Progress shall be monitored in accordance with the IEP through a variety of means such as consultation, observation, work samples and post testing. Parents will be notified of their child's progress throughout the year at least as often as parents of children without disabilities are notified of their child's progress. If a student is not progressing adequately toward the goals and benchmarks/objectives in the IEP, a meeting shall be called to discuss possible IEP or program adjustments which may facilitate progress.

Approved:

Revised: 10/2022

Conversely, if a student has met or exceeded the goals and benchmarks/objectives in the IEP, the IEP will be amended to reflect new goals. The IEP team may be reconvened at any time to review the provisions of the IEP. The LEA shall, upon a written request for an IEP team meeting, schedule a mutually agreeable time and date, convene the IEP team, or provide the parent/guardian/adult student with written prior notice detailing why the LEA refuses to convene the requested meeting. All of the above must be completed within 21 days.

PLEASE NOTE: Both IDEA (34 CFR 300.324 (a) (4)) and NH Rules allow the parents and district to agree to amend or modify the IEP without a meeting and to develop a written plan to amend or modify the IEP which must be shared with all EP team members.

Placement of Children with Disabilities

The District shall ensure that, to the maximum extent appropriate, children with disabilities, including children in public or private institutions or other care facilities shall be educated with children who do not have disabilities. Special classes, separate classes, separate schooling, or other removal of children with disabilities from the regular educational environment shall occur only when the nature or severity of the disability is such that education in regular classes with the uses of supplementary aids and services cannot be achieved satisfactorily.

IEP Team (Ed 1103.01)

The IEP Team (including the parents) shall make placement decisions in accordance with state and federal laws and rules. For each child with a disability, the IEP team shall include:

- The parents of the child;
- Not less than one regular education teacher of the child (if the child is, or may be, participating in the regular education environment);
- Not less than one special education teacher of the child, or, where appropriate, not less than one special education provider of the child;
- A representative of the public agency who:
 - Is qualified to provide or supervise the provision of specially designed instruction to meet the unique needs of children with disabilities;
 - Is knowledgeable about the general curriculum; and

Approved:

Revised: 10/2022

- Is knowledgeable about the availability of resources of the public agency.
- Other individuals who have knowledge or special expertise regarding the child (at the discretion of the parent of school District);
- Transition service representative if applicable; and
- If appropriate, the child.

Placement Decisions (Ed 1111.03 (a))

The decision where a child with a disability receives supports and services shall occur after the development and approval of the individualized education program (IEP). The placement decision shall be based on the unique educational needs of the child as specified in the individualized education program and the requirements for placement in the least restrictive environment.

In making placement decisions, the IEP team shall:

- Draw upon information from a variety of sources, including but not limited to aptitude and achievement tests and teacher recommendations;
- Consider information about the student’s physical condition, social or cultural background, and adaptive behavior;
- Ensure that information obtained from all of these sources is documented and carefully considered;
- Ensure that the placement decision is made by a group of persons knowledgeable about the child, the meaning of the evaluation data, and the placement options; and
- Each LEA shall ensure that to the maximum extent appropriate, children with disabilities, including children in public or private providers of special education, are educated with children who do not have disabilities and that, consistent with 34 CFR 300.114, special classes, separate schooling, or other removal of children with disabilities from the regular educational environment occurs only when the nature or the severity of the disability is such that education in regular classes with the use of supplementary aids and services cannot be achieved satisfactorily (Ed 1111.01 (a)).

Approved:

Revised: 10/2022

The District shall offer a continuum of alternative learning environments from least restrictive to most restrictive. These learning environments shall range from regular classes to a home environment and shall be available for children with disabilities including children of preschool age. Supplementary services shall be provided in conjunction with regular class placement.

Each child's educational placement shall be reviewed annually and shall be based on his/her individualized education program (IEP). The placement shall be as close as possible to the child's home. If possible, a child with a disability shall be educated in the school he/she would attend if a disability did not exist. The least restrictive environment shall be selected with consideration given to any potentially harmful effects to the child or on the quality of services described in the child's individualized education program.

The District shall ensure that children with disabilities participate with nondisabled peers, to the maximum extent possible, in non-academic activities such as recess, lunch and specials (art, music).

The District shall ensure that parents are afforded the same notification for placement meetings as they receive for IEP meetings, including a minimum of 10-day notice, unless the 10-day notice requirement is waived in writing. Special education placements shall require written consent from parents prior to implementation, and shall be determined at least annually.

Graduation from high school with a regular high school diploma shall constitute a change in placement, requiring written prior notice and parental consent. Graduation from high school with a regular high school diploma does not however, require evaluations to discharge from special education services. A summary of performance shall be developed by the student, IEP team and parents to facilitate information sharing after the student leaves school.

Home Instruction (Ed 1111.04)

A child with a disability may receive all or a portion of his/her special education program at home.

Approved:

Revised: 10/2022

- Preschool students with disabilities may receive all or a portion of their special education program at home depending upon the need as specified in the IEP.
- Home instruction for children at least six years of age but less than 22 years of age shall include a minimum of ten hours per week of instruction, including special education services and related services as specified in the child's IEP.
- A child's placement is determined at least annually and is based on the child's IEP.
- Children who are placed in home instruction shall be allowed to participate with nondisabled children to the maximum extent appropriate to the needs of the child.
- The length of the school year and school day for a home instruction placement shall be consistent with RSA 186-C:15 except when the superintendent has excused a student from full-time attendance in which case the superintendent and parent shall agree on the number of hours per week of instruction, including special education and related services.
- A child with a disability who is in a hospital or institution shall receive special education or special education and educationally related services in that setting.

Extended School Year Services (ESY) (Ed 1110)

Extended school year services are special education and related services provided to a child with a disability beyond the normal school year and in accordance with the child's IEP, and at no cost to the parents of the child. The District shall ensure that ESY services will be available as necessary to provide each child with a disability a free, appropriate public education.

The child's IEP team shall determine the child's need for extended school year services. The District shall not limit extended school year services to particular categories of disability or unilaterally limit the type, amount or duration of those services. The District shall provide extended school year services at times during the year when school is not in session, if determined by the IEP team to be necessary for the provision of FAPE, and shall not limit ESY services to the summer months.

PLEASE NOTE: ESY services provided in non-special education or non-district programs shall be supervised on site by appropriately certified LEA personnel no less than once a week. (Ed 1110.01 (c)). The certification requirements for ESY personnel are the same as during the school year.

Approved:

Revised: 10/2022

7. Program Evaluation

Ed 1126.01 (9)

The Epping School District is committed to providing effective, high quality special education services to all children with disabilities. The District continually evaluates the special education and educationally related services it provides to children with disabilities to ensure that all students' unique needs are met.

The District determines, at least annually, the degree to which special education and related services being provided for children with disabilities are effectively meeting the students' needs. As part of its evaluation activities, the District also identifies program deficiencies and plans for future needs.

Evaluation of the overall functioning, efficiency and success of the special education programs offered by the District is conducted through a combination of objective and subjective techniques. This process includes an internal monitoring and review component that considers both individual and general program impact, as well as an external review process, which consists of the NH Department of Education Program Approval and Improvement Process.

Individual Program Impact

The effectiveness of students' individualized education programs is determined through a careful analysis conducted by each child's IEP team. The IEP team monitors the child's progress toward achieving the measurable goals, including post-secondary goals when age appropriate, detailed in the student's IEP. Evaluation measures may include:

- Curriculum based measurement
- Student observation
- Post testing and diagnostic reevaluations
- IEP progress reports
- Report cards
- Input from parents
- Student movement from more restrictive to less restrictive educational settings

General Program Impact

Approved:

Revised: 10/2022

Participation in state and district-wide assessments is part of the statewide accountability system that helps to ensure that all children have a fair, equal, and significant opportunity to obtain a high-quality education through the New Hampshire Curriculum.

The Epping School District ensures that all students with disabilities have the opportunity to participate in state and district-wide assessments with appropriate accommodations as necessary, to show what they know and can do, and how they are progressing, based upon challenging state academic achievement standards. Decisions about accommodations are determined by IEP teams and are specified in each student's IEP. Students who cannot participate in the statewide academic assessment programs are administered a New Hampshire alternative assessment, such as Dynamic Learning Maps and/or NECAP-Alt Science (grades 4, 8 and 11).

In a similar manner, the IEP team determines alternate forms for district-wide assessments to be provided for all eligible students. Results of group assessments are formally analyzed by District staff to determine trends and patterns that may reflect areas in need of improvement. Instructional decisions are made in accordance with the analysis of assessment results in order to more effectively meet the needs all students. Alternate assessments are examined in order to reflect on progress, programming needs and potential adjustments that may be needed for students with more significant disabilities.

The following strategies are included in those utilized to assess general program effectiveness in the special education department:

- Parent Surveys
- General Staff Surveys
- Special Education Focus Group Meetings
- Professional Development Needs Survey
- New Hampshire Special Education Information System data
- (Other – as determined by District)

The above information will be used to identify program needs, training needs and any gaps in services that may exist. Systemic changes for the upcoming school year will be considered and planned for, based on the information gathered. Additionally, the information will be used to plan District professional development activities.

Approved:

Revised: 10/2022

All professional and paraprofessional staff members within the District are evaluated using a predetermined system aimed at professional growth and development. Feedback is provided to all in the form of (commendations and recommendations; summative evaluation; etc). In this way, the Epping School District ensures that all staff may continue to improve their knowledge and skills in order to effectively meet the needs of all students.

NH Department of Education Focused Monitoring

The findings and recommendations from the external “Program Approval and Improvement Process,” conducted by the NH Department of Education on June 18, 2007, will be carefully considered and addressed by all members of the Epping School District Administrative Team. Team members/District officials will analyze the final report and implement the necessary activities to ensure full compliance with state and federal laws and regulations. Upon notification from the NH Department of Education regarding areas of noncompliance, all corrective action activities shall be completed as soon as possible, but in no case later than one year.

8. Private Schools/Parentally Placed Children with Disabilities

Ed 1126.01 (b) (11)

The Epping School District shall ensure that children with disabilities who are placed by their parents in private schools have equitable participation in special education programs pursuant to state and federal regulations.

In accordance with the New Hampshire Education Rules, children who are receiving home education shall not be considered to be children attending a private school.

Child Find (Ed 1126.01 (b) (1))

The District must locate, identify and evaluate all children with disabilities attending all private schools, including religious schools, within the geographic boundaries of the

Approved:

Revised: 10/2022

District. Private schools must be approved as “elementary” or “secondary” schools as listed in NHSEIS.

On an annual basis, the District consults with representatives of private schools and representatives of parentally placed students to decide:

- How parentally placed private school children will participate equitably; and
- How parents, teachers, and private school officials will be informed of the District’s year-round child find activities.

All child find activities conducted for children enrolled in private schools by their parents are similar to those activities conducted for children who attend public schools within the District.

The District maintains records and reports the number of private school students evaluated, the number of children determined to be children with disabilities, and the number of parentally placed private school children with disabilities who are served to the NH Department of Education on an annual basis.

A “**Notice to Parents of Private School Children**” is distributed to local newspapers for publication, as well as posted at each private school located within the boundaries of the District each year. This notice fulfills the District’s obligation to invite representatives of parents of children with disabilities who are enrolled in the school to the consultation meeting.

Consultation (Ed 1126.01 (c) (5))

The District conducts timely and meaningful consultation with representatives of private schools and representatives of parents of parentally placed private school children with disabilities in order to design and develop special education and related services for eligible children who attend private schools within the District. The consultation process operates throughout the school year to ensure that parentally placed children have the opportunity to meaningfully participate in special education and related services.

Through the consultation process, the District decides, which children will be served, what services will be provided, how and where the services will be provided, and how the services will be evaluated.

Approved:

Revised: 10/2022

The District documents these decisions on the **Affirmation of Consultation** form. The completed form is sent to each private school providing a rationale of the District's decisions.

Provision of Services (Ed 1126.01 (11))

Services to parentally placed private school children are provided by personnel meeting the same standards as those required in the District. Eligible children have no individual right to services and they may receive different amounts of services than those provided to students in the public schools. An Individual Service Plan (ISP) will be developed for each child eligible to receive services.

Private elementary and secondary school teachers who are providing equitable services to parentally placed private school children with disabilities do not have to meet the highly qualified special education teacher requirements.

PLEASE NOTE: IDEA grant monies may be applied toward the procedures listed above.

9. Accessible Instructional Materials

Ed 1126.01 (b) (12)

The Epping School District ensures that children with disabilities who need instructional materials in accessible formats will receive those materials, as set forth in their IEPs or dictated by their disabilities, at the same time other non-disabled children receive their instructional materials.

Such materials may include, but are not limited to, Braille textbook-on-tape, specialized software, etc.

10. Discipline Procedures

34 CFR 300.530-34 CFR 300.536, Ed 1124

Approved:

Revised: 10/2022

Suspensions of Ten Days or Less During the School Year

Children with disabilities shall be entitled to the same protections and procedures that are available to children without disabilities. School personnel may remove a student with a disability, who violates the code of conduct, from his or her current educational placement under certain circumstances. A student may be removed to an interim alternative educational setting, another setting, or suspension, for not more than 10 school days at a time for a violation of school rules in accordance with the discipline policy of the District that is used for all students, unless it is determined that the removal constitutes a change of placement.

When a child is removed from his or her current placement for 10 or fewer days in the school year, the District shall not be required to provide any special or regular education services during the suspension, as long as those removals do not constitute a change of placement under 34 CFR 300.536.

When these removals (10 days or less at one time) accumulate to more than 10 days in a school year, school personnel, in consultation with at least one of the child's teachers, shall determine the extent of services needed to enable the child to progress in the general curriculum and toward the IEP goals, and the location in which the services will be provided.

School personnel may consider unique circumstances on a case-by-case basis whether a change in placement is appropriate for a student with a disability who violates the code of conduct. Change of placement includes removal for more than 10 consecutive days or a series of removals in excess of 10 days that constitute a pattern. When disciplinary action results in a change of placement, notice shall be provided to parents the day the decision is made.

Suspensions of More Than Ten Days (34 CFR 300.530 - 300.536, Ed 1124.01)

When any change in placement is contemplated for more than 10 school days because of a violation of a code of student conduct, the District, the parent, and relevant members of the IEP Team shall convene no later than 10 school days after the school decides to suspend the child and review:

Approved:

Revised: 10/2022

- All relevant information in the student’s file;
- The child’s IEP;
- Any teacher observations; and
- Any relevant information provided by the child’s parents.

To determine:

- If the conduct in question was caused by the child’s disability or had a direct and substantial relationship to the child’s disability; and
- If the conduct in question was a direct result of the District’s failure to implement the IEP.

If either of the above determinations is affirmative, the conduct shall be determined to be a manifestation of the child’s disability. If determined that the child’s conduct is a direct result of the District’s failure to implement the IEP, the District shall take immediate steps to remedy those deficiencies.

If the behavior is not a manifestation of the student’s disability, the relevant disciplinary procedures that apply to students without disabilities may be applied in the same manner as they would be applied to other students, except that appropriate educational services must continue.

Manifestation Determination Decision (34 CFR 300.530 – 300.536, Ed 1124.01)

If the District, the parent, and relevant members of the IEP Team determine that the child’s conduct was a manifestation of his/her educational disability, the IEP Team shall:

- Conduct a functional behavioral assessment and implement a behavioral intervention plan for the child;
- If a behavioral intervention plan has been developed, the team shall review the existing plan and modify it as necessary to address the behavior; and
- Except under “special circumstances” return the child to the placement from which he/she was removed, unless the parent and the District agree to a change of placement as part of the modification of the behavioral intervention plan.

“Special Circumstances” allowing for removal to an Interim Alternative Educational Setting (34 CFR 300.530 (g)-34 CFR 300.532)

Approved:

Revised: 10/2022

The child may be removed from his/her current placement by school personnel and placed by the IEP Team in an Interim Alternative Educational Setting (IAES) for up to forty-five (45) school days without regard to the manifestation determination in cases where the child:

- Carried or possessed a weapon to or at school, on school premises, or to or at a school function under the jurisdiction of a state educational agency (SEA) or District;
- Knowingly possessed or used illegal drugs, or sold or solicited the sale of a controlled substance, while at school, on school premises, or at a school function under the jurisdiction of an SEA or District; and/or
- Inflicted serious bodily injury* upon another person while at school, on school premises, or at a school function under the jurisdiction of an SEA or District.

* Serious Bodily Injury: defined in USC 1365(g) means a bodily injury that involves a substantial risk of death; extreme physical pain; protracted and obvious disfigurement; or protracted loss or impairment of the function of a bodily member, organ or faculty.

No later than the date of the disciplinary decision, the District shall notify the parents of the decision and of the procedural safeguards. If parents disagree with the decision and request an appeal, the child shall remain in the alternative setting pending the appeal.

If there is a disagreement with the parents, the District may seek an order from a Hearing Officer for placement in an interim alternative educational setting when it believes that maintaining the current placement of the child is substantially likely to result in injury to the child or to others.

A child who has not been determined to have a disability and is subject to disciplinary action may assert the protections in this part if the District had knowledge that the child was a child with a disability before the behavior that precipitated the disciplinary action occurred. The District will consider cases on an individual basis and in accordance with CFR 300.534

Protections for Children Not Yet Eligible for Special Education and Related Services

Nothing in this part will prohibit employees of the District from reporting a crime committed by a child with a disability to appropriate authorities. Neither will it prevent state law enforcement and judicial authorities from exercising their responsibilities with regard to the application of Federal and State law to crimes committed by a child

Approved:

Revised: 10/2022

with a disability. If the District reports a crime committed by a child with a disability, then the District shall also ensure that copies of the special education and discipline records will be transmitted for consideration by the appropriate authorities, but only to the extent permitted by the Family Educational Rights and Privacy Act (FERPA).

Attendance and Discipline (Ed 1114.07 (d))

It is expected that all students in the Epping School District will comply with the attendance and behavior expectations and rules of the schools. The District shall not discriminate against anyone on the basis of disability when administering attendance and discipline systems. To this end, a minority of students may require accommodations or modifications to the discipline or attendance policies because of their educational disabilities.

If a student with a disability is in jeopardy of not meeting the attendance requirements or school rules, the Individualized Education Program (IEP) Team will convene and review and/or revise the student's Individualized Education Program (IEP) as appropriate. The District has instituted procedures for manifestation determination meetings. Additionally, a functional behavior assessment shall be conducted and/or reviewed as required.

12. Additional Resources

1. Guide to the New Hampshire Standards for the Education of Children with Disabilities

https://www.education.nh.gov/sites/g/files/ehbemt326/files/inline-documents/2020-04/pic_guide_ed1100.pdf

Developed by: The Parent Information Center on Special Education, August 15th, 2017

This Guide to the NH Standards for the Education of Children with Disabilities includes the text of Chapter Ed 1100, Standards for the Education of Children with Disabilities that were adopted by the State Board of Education on March 23, 2017 plus additional supplemental text for each reference cited in the NH Standards (formerly referred to as the NH Rules). Supplemental text is included in a textbox following each reference). This Guide is not an official document; it is offered as a resource for parents, educators and others through a partnership between the NH Department of Education, Bureau of Special Education and the Parent Information Center.
